DSU Alumni Rate High Satisfaction with Technology Skills

According to the 2013 DSU Alumni Survey, our alumni were most satisfied with their ability to learn on the job, use computer applications effectively, and adapt to changes in the computing environment. The DSU Alumni Survey has been used since 1993 to survey alumni one and three years after graduation. The rating scale was modified in 2010 from a 5-point scale to a 4-point scale ranging from 4=very satisfied to 1= very dissatisfied. The alumni rate their satisfaction with their abilities in three areas: technology skills, communication/socialization skills and job-related skills. Employers of DSU alumni complete a similar survey on an annual basis.

Alumni rate satisfaction with competence in the following areas:
